

Ennerdale Protest Walk - 12:00hrs Saturday 26th January 2013

We have organised a protest walk in Ennerdale on Saturday 26th January 2013.

This is the potential route that heavy lorries and site equipment could take through the Ennerdale valley. The walk will start at Bowness Knott Carpark and continue beside the lake and end at the River Liza Delta just below Ennerdale Fell. This would be the anticipated site for the temporary Drilling HQ if seismic testing is to be carried out in MRWS Stage 5.

The closing sequences of the movie 28 Days Later (2002), directed by Danny Boyle, were filmed around the Ennerdale area and people will remember the message laid on the grass and viewed from above. We have arranged for the walk to be photographed from the air, weather permitting. It is our intention to recreate the final scene and provide footage and stills for use by the media.

The proposed walk will be a gentle stroll of 1.5miles each way and is easy enough for families and walkers of all ability. Please make sure all your friends, family, colleagues and anyone else who will listen comes along and supports this protest. We need as many people as possible to create media interest. Please pass on this email to anyone you feel is appropriate.

If you are coming please print out a poster, fix it to cardboard and a stick and carry it with you on the day. The more posters we have the better. There is an A4 single sided poster and an A3 poster in two halves which can be printed on a standard printer. The message is simple. MRWS – Stop – Stage 4

Posters available for printing at <http://www.noend.org.uk/Pages/Documents.htm>

Start :- Bowness Knott Carpark (map ref NY110154)

Time :- 11:30am for a 12 o'clock start

Date :- Saturday 26th January

If you want any further information please see www.noend.org.uk or email contact@noend.org.uk

We don't have much time to save Ennerdale and the National Park from stage 4 – we need your help!
